Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Requirement For Information - 37 C.F.R. § 1.105

1. Applicant and Assignee of this application are required under 37 C.F.R. 1.105 to provide the following that the Examiner has determined is reasonably necessary to the examination of this application.
2. The Examiner's prior art search revealed co-pending application 09/997,056 filed under a common assignee which includes a number of intervening references that have been asserted in rejecting the co-pending application under 35 U.S.C. 102(b). The Examiner contends that the acquisition of exception handling and/or unwind information upon the occurrences of an exception within an address range bounded by a begin address and an end address in the co-pending application required for enabling the current invention constitute prior art.
3. To make the record clear the examiner is requiring all of applicant's co-pending applications along with prior arts cited, and Information Disclosure Statements filed as part of the co-pending applications that are related to the acquiring of exception handling and/or unwind information upon the occurrences of an exception within an address range bounded by a begin address and an end address.
4. As these are needed to provide a complete examination of the pending application it is proper to require disclosure of the following. See M.P.E.P. 704.11, 37 C.F.R 1.97 and 37 C.F.R. 1.105(a)(i)-(vii).

5. In response to this requirement, please provide:

a. A copy of any non-patent literature, published application, or patent (U.S. or foreign), by any of the inventors, that relates to the claimed invention or that was used to draft the application (i.e. information used in background of invention).

6. The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 C.F.R. 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete reply to the requirement for that item.

7. The fee and certification requirements of 37 C.F.R. 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 C.F.R. 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement under 37 C.F.R. 1.105 are subject to the fee and certification requirements of 37 C.F.R. 1.97.

8. This requirement is subject to the provisions of 37 C.F.R. 1.134, 1.135 and 1.136 and has a shortened statutory period of 2 months. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 C.F.R. 1.136(a).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Qing-Yuan Wu whose telephone number is (571) 272-3776. The examiner can normally be reached on 8:30am-6:00pm Monday-Thursday and alternate Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Thomson can be reached on (571) 272-3718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
